Summary

Full-Stack Developer and Playwright Tester with strong experience building scalable web applications and implementing automated end-to-end testing solutions. Skilled in **React.js**, **Node.js**, **MongoDB**, and **Playwright automation**. Experienced in developing responsive user interfaces, building REST APIs, and ensuring application quality through automated UI and E2E testing. Passionate about delivering reliable, high-performance web applications.

Technical Trainee | First American | 25 March 2026 – Present

- Working on **Data Validation & Quality Assurance, Development, and Testing**, ensuring data accuracy and application quality.
 - Performing **API testing and automation using Playwright with TypeScript**, including response and field validation.
-

Training

MERN Stack Developer Trainee

- Developing full-stack web applications using the MongoDB, Express.js, React.js, and Node.js (MERN) stack.
 - Building responsive and dynamic user interfaces with React.js, focusing on reusable components and efficient state management.
-

Projects

Interactive LMS Website

- Developed a responsive Learning Management System (LMS) with role-based access for Admin, Instructor, and Student.
 - Built dashboards, announcements, course progress tracking, and activity logs.
 - Improved engagement through intuitive UI and responsive design.
 - Implemented Playwright-based automated testing to validate course navigation, user authentication, and dashboard functionality.
 - Performed UI and cross-browser testing to ensure consistent user experience.
-

Education

Bachelor of Engineering – Computer Science and Engineering

Government College of Engineering, Dharmapuri (2022 – 2025) | CGPA: 7.9

Diploma – Computer Science and Engineering

RVS Polytechnic College, Coimbatore (2019 – 2022) | CGPA: 9

Skills

Frontend Development: HTML5, CSS3, JavaScript, Typescript React.js

Backend Development: Node.js, Express.js

Databases: MongoDB, SQL

Testing & Automation: Playwright with Typescript, End-to-End (E2E) Testing, UI Automation

Tools & Technologies: Git, VS Code, Figma, Playwright

Cloud & AI (Basics): AWS, AI/ML Concepts, LLMs, Prompt Engineering
