Summary

Full-stack Developer with strong experience in building scalable web applications, responsive front-end interfaces, and cloud-deployed solutions. Skilled in React, Node.js, Firebase, MongoDB, and hands-on experience with AI/ML workflows and LLM-based applications. Proven track record in delivering high-quality features, optimizing performance, and collaborating across teams. Passionate about creating user-centric digital experiences and leveraging AI-driven solutions to solve real-world problems.

Professional Experience

Full-stack Developer — Innomatics Technologies, Bangalore

September 2025 – Present

- Developed and maintained full-stack applications using **React.js, Node.js, Express.js, Firebase, and MongoDB**.
- Designed modern, intuitive, and responsive user interfaces improving cross-platform experience by 30%.
- Successfully contributed to **10+ client projects**, ensuring timely delivery and adherence to engineering best practices.

Internship

Front-end Developer

SmartCliff Learning Solution – Coimbatore | July 2024 – August 2024

- Developed and maintained responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility and clean UI layouts.
- Implemented interactive components such as modals, forms, animated UI sections, and navigation menus to enhance user engagement.
- Improved page load speed and UI responsiveness by optimizing front-end code structure, assets, and reusable components.

Projects

1. E-commerce Website — Admin Panel & Seller Panel

- Built a complete e-commerce management system with **separate interfaces for Admin and Sellers**.
- Product management, user management, order tracking, and analytics dashboard.
- Product uploads, inventory management, order updates, and sales insights.
- Integrated secure login, real-time updates, and responsive UI using **React & Firebase**.
- Designed backend workflows to ensure smooth data flow between admin, sellers, and customers.

2. Interactive LMS Website — AWS Deployment

- Developed a fully responsive LMS with **role-based access (Admin, Instructor, Student)**.

Added real-time features:

- Dashboards, announcements, course progress tracking, and student activity logs.
- Designed an intuitive UI improving accessibility and user engagement.
- Successfully deployed on **AWS S3**, enabling scalable, secure, and low-cost hosting.
- Ensured optimized loading times and improved user accessibility across regions.

Training

MERN Stack Developer Trainee

- Building full-stack applications using **MongoDB, Express.js, React.js, and Node.js**.
- Gaining experience in RESTful APIs, backend development, routing, and database management.

Skills

Frontend Development: HTML5, CSS3, JavaScript, React JS, UI/UX Design, Bootstrap

Backend Development : Node.js , Express.js

Database : Firebase, MongoDB, SQL

AI/ML & Cloud(Basics): LLMs, AI/ML, Agent AI, AWS, Prompt Engineering

Tools & Technologies: Power BI, Figma, VS Code

Soft Skills: Time Management, Team Leadership, Willingness to Learn

Education

Bachelor of Engineering – Computer Science and Engineering

Government College of Engineering, Dharmapuri (2022 – 2025) | CGPA: 7.9

Diploma – Computer Science and Engineering

RVS Polytechnic College, Coimbatore (2019 – 2022) | CGPA: 9

Certifications

Front-end Development , HTML 5 , CSS 3 , Data Visualization with Power BI , Generative AI, Data Analysis , AI&ML , Microsoft Office
